NO. 51

HUSTONVILLE.

—One of the neatest housekeepers in the West End is accused of having scoured the floor of her coal house preparatory to storage of her winter's supply. Your scribe can testify to the fact that the apartment was as "clean as a new pin" when first wagon load was received and the floor was still wet.

—The death of Clay Kauffman was a sad surprise to his friends and boyhood associates, who had hoped from late reports that he was permanently restored to health and would soon be able to resume his professional labors. Hustonville has proudly watched her son's steady climb toward the top rung of his profession, and exulted in his uniform success. The entire community mourns his death.

—A colored gentleman, originally from Horse Shoe Bottom, availed himself of the cheap rates of a recent excursion to Louisville to see something of the world and has much to narrate of the sights. He stated to one interested crowd that he had recently traveled all over the United States and that the people of the Western States are not much different from our part of the world. The men look like our people but act a little "quarer." His experience suggests that of a mountaineer on paying his first visit to a railroad station just across the county line—his first trip beyond his county's borders. It was with great hesitancy that he yielded to the necessity of crossing a river on a ferry. As soon as he stepped ashore after recrossing to the home side of the river, he heaved a sigh of ecstatic relief and exclaimed: "Thank God, back in old Kaintuck once more."

—Mr. George Stone passed through town one day last week, on his way from Knoxville to Liberty. It is a source of gratification to his many friends that Kentucky will regain one of her talented sons and a hope of his old patrons that the Liberty bar shall again point to him as one of its "brightest ornaments." Mrs. Sophia Carson, of Louisville, has been spending several weeks with her numerous relatives and friends here. Misses Jennie Pollard and Agnes Bourne, of Garrard, are visiting relatives of this and Mt. Salem neighborhood. Misses Bettie, Mattie and Jessie Powell entertained a select few, a few nights since, in honor of their little guests, Mary and Patsy Rice, of Lancaster. Misses Belle and Anna Riffe issued invitations for last Wednesday night, but a vastly refreshing rain prevented attendance.

—An editorial in a late issue of the Courier-Journal disparages Dr. Nansen's proposed polar expedition, concluding with the declaration that success would only assure us that there is a north pole. Poor Symmes, long a resident of Louisville, the author of a "Hole at the North Pole," to be so soon forgotten by his own people that not even reference is made to his wonderful creation. (?) By all means let's have Dr. Nansen "climb the pole." In event of sailing triumphantly into Symmes' immense internal world and finding his way back to report progress, what phenomenal opportunities for diplomatic finesse in opening up reciprocal relations with a newly discovered nation. The "Inflated International Balloon Company, limited," would immediately establish a daily line, and how much nicer than going to "Yurup" would be a trip to Symmes' Hole.

—The secular press kindly keeps us abreast with the wonderful progress of medical and surgical science, and though there is frequently a certificate too much after Munchausen's style to have a genuine ring we are as much afraid to scout the marvelous in the medical as in the mechanical world, and we owe to a Danville physician of age, experience and repute a wonderful discovery in connection with Pasteur's investigations of rabies, viz: "If a dog bite you have him killed so that he can't go mad, for a development of the malady in that dog in after years will render you liable to an attack." We have long thought that pride rather than progress ridiculed the preventive potency of a nice little sack of asafetida, sulphur and garlic properly suspended from the neck, and shall not be surprised to see that simple and wonderful mixture speedily restored to something like its popularity in the days of Dr. San Grado. Oh science! great are some of thy votaries. Will some of the readers of the INTERIOR inform us whether there is a patent on kind of switch to be used in the science of rabidomancy? We have heard of an expert who uses elm successfully, and why should operators be taxed for peach-tree when other timbers are equally as efficient?

GRAB ORCHARD.

—One thousand yards of Standard prints at 5 cents a yard. W. E. Perkins.

Mrs. Richard Manning, of South Carolina, can boast of being the mother of a governor, the wife of a governor, the sister of a governor, the niece of a governor and the aunt of a governor.

COLORADO

As Seen by an I. J. Man.

Pretty Good, but Nothing Equals Kentucky.

THE CROPS, THE WOMEN AND THE RACE COURSES.

DENVER, Aug. 24.—After a 26 hours' ride from Kansas City the long shrill whistle of our engine, denoting that we were nearing Denver, was a welcome sound to my ears and I dare not say to the entire cargo of passengers. Notwithstanding the great Chicago, Rock Island & Pacific Railroad is elegantly equipped in every particular and runs through probably the best portions of Kansas and Colorado, the country is so barren of interesting sights, save prairie lands, that the eye grows weary and monotony suggests itself. I had frequently heard of the prairie lands of the West, and had been told that to ride for days and days on a mustang without catching the sight of even a shade tree was no infrequent occurrence, but took it to some extent with a grain of salt. I find now I was insufficiently credulous.

Our journey from Smith's Centre to Denver is over 400 miles and upon my word I did not see, save as we neared Denver, exceeding a dozen trees i. e. trees that would be of benefit for shade. One broad expanse of land, with here and there a farm house, a town every 25 or 30 miles and herds of ponies, cattle and sheep, and the high heaven above are the only sights that greet the eye whether you look towards any or all of the cardinal points. The towns along the line are all similar in appearance and look as if they had never been laid off, but that each builder erected his house where he desired. Very few stately buildings are seen and the dwellings are but poorly put up huts. In fact there is nothing permanent in the appearances of the little villages and they all possess a very dead appearance.

The sod hut is something of a peculiarity. As a general thing it is for the use of ranchmen and is as rude a looking residence as one could imagine. It is built from top to bottom of sod and grass grows luxuriantly from the entire building. Some of the little huts are known to have stood for 20 years.

There is a good deal of irrigation done in Western Kansas and Eastern Colorado, and the crops in those portions are wonderfully improved by it. It is a pretty expensive way of getting results, but proves a good investment in the long run. For instance, wheat without irrigation threshes out not more than 10 to 15 bushels per acre, while with it 30 bushels is not more than a fair average. Alfalfa, resembling clover and used for the same purpose, can not be grown without the above process owing to a scarcity of rains in that section, and it is one of the necessities for wintering stock of all kinds.

Prairie dogs and jack rabbits are plentiful along the Rock Island route and hunting the latter is said to be fine sport. The former have regular little towns and can be seen by the hundreds, perched on their little mounds. Near the stations they are becoming tame and a few are used as pets by the ladies, who probably would greatly prefer a two-legged animal for the same purpose.

Gov. Humphrey, of Kansas, was a passenger on our train for a short while Saturday, and I had the honor of a glimpse at that august individual. He is a good looking man and is no doubt a better specimen of humanity than the average republican who assisted in making him the standard bearer of that republican stronghold. The governor is not a dude by a long shot, but on the contrary resembled a herdsman with his big sombrero hat on.

Denver, although I have not seen all of it, impresses me most favorably. With that "get up" that is characteristic of a Western town and an immense territory to draw from, it is no surprise that it is the city it is. It is well built and has decidedly the finest and largest business houses of any town I have been in—size of course considered. The court-house and post-office are both mammoth structures of white stone resembling marble and are not far from equalling the public buildings of Washington. The union depot is another grand building and excels by far either Kansas City or St. Louis. Denver's streets do not correspond with her many other good features, however, and are simply horrible. Heavy rains of recent date are partly the cause and the newspapers promise in the name of the city fathers that they shall soon be in good condition.

It has been down right cold here and a couple of blankets have been necessary for comfort at night. A heavy snow fell at Colorado Springs, 80 miles distant, last night, and a small skin of ice was seen. This is quite a pleasant change to me, for while coming through Indiana, Illinois and Missouri, the heat was nearly unbearable and the dust stifling in the extreme.

Pardon me for speaking of the fair sex again, but it is a very dear subject, and I think I am a close observer on that line and consequently can not desist. Denver has some beauties, sure enough, and the majority of the members of that sex will rank as good as medium. On the streets and at the theatres I have noticed closely and can frankly say that the young ladies here compare more favorably with those of "dear old Kentucky" than any I have seen in my travels. The once great boom town of Kansas City and the ancient St. Louis are not "in the fight" in that line, but from what I have seen have a fairly comely set.

Fort Logan, where some 500 or 600 soldiers are stationed, is one of the places of interest at Denver. They drill daily and twice a week make a grand dress parade and a brilliant exhibition of their brass buttons. From observation I am inclined to believe that the girls of Colorado are as fond of the soldier boys as they are over our way, which is saying a good deal.

The Western man is by far the most persistent drummer I have yet encountered. The clothing stores, dry goods stores, restaurants and bar-rooms are all represented at the depot, and the new comer literally has his life worn out by the cheery representatives. It is frequently necessary to make at one or two of them with clenched fists or either patronize the whole gang to procure a few moments quietude.

Considering Denver's location she has a large number of railroads, all of which have been of great advantage to her. Nine lines run into the Union depot and with 5 or 6 trains on each, daily, the busy scene presented at her depot is one not to be sneezed at.

Colorado is following the example of Kentucky and is devoting a good deal of attention both to the thoroughbred and the trotter. A number of tracks have been built in various parts of the State within the last year and Denver is not far behind in the work. A mile track for running races has just been completed and with the gayly painted and unique grand stand, the running course is indeed a thing of beauty. The trotting track and surroundings have also been under repair and presents a very prosperous appearance.

I shall take a trip to Colorado Springs, Manitou Springs and Pike's Peak Monday and if I can scrape up any thing in my peregrinations I shall ask a little more space in Tuesday's issue, but for this issue I am positive the editor, the compositor and the reading public will agree with me when I say I think I have taken up my share of the space.

E. C. W.

MCKINNEY.

—John Murphy and Anderson Nunnelly are seriously ill with typhoid fever. —The Sunday School and Missionary Convention of the South Kentucky Association meets at Middleburg Friday, Saturday and Sunday next. An interesting programme has been extensively circulated and a profitable meeting is expected.

—Mose Coffey, Geo. Hughes, Arthur Davidson and Mrs. Pearl Pulliam have had quite recent additions to their family circles, all of female persuasion save Mr. Hughes', which, under the new constitution, has a right to be different from other people.

—Our long neglected school-house has just been treated to a general overhauling and a new tripple coating of paint inside and out, and furnished with new and substantial desks of the latest patent. Other repairs are yet to follow and the building of an additional recitation room is contemplated. Prof. W. R. Cress, as principal with Miss Della Gooch assistant, opened school in the newly furnished apartments Monday morning with 70 pupils.

—Rev. W. J. Ward is at Somerset conducting a series of meetings in his church at that place. He is assisted by Rev. Fred D. Hale, of Louisville. Rev. W. R. Davidson aided Revs. Abbott and Middleton last week in a protracted meeting at Pleasant Point church, near Kingsville. There were 17 additions to the church reported up to Sunday's service. Rev. W. W. Bruce, pastor of the Presbyterian church here, failed to fill his appointment last Sunday, and as a consequence we had no preaching in town that day. Rev. J. H. Riffe, of Perryville, preached at the Baptist church, Friday night. He has been called to the pastorate and will begin his work here on the first Saturday night in September, from which time he will protract the meeting about two weeks.

"But are you sure, Madeline, that there are not times when you regret our engagement?"

"Haven't I had proposals from many men—handsome, honorable, cultivated, delightful men—and yet (tenderly) didn't I choose you, dear?"—Life.

—The Missouri Alliance deposed U. S. Hall from the Presidency because he opposed the third party movement and the sub-treasury scheme, and elected Leverett Leonard as his successor.

MIDDLEBURG, CASEY COUNTY.

—Died, on 221 inst., Mary, the wife of Christopher Lanham, of consumption. —Rev. B. Gibson, of Lexington, is holding a protracted meeting at the Christian church.

—Sunday was the first one in many days that there was no preaching at either of the churches. Sickness and absence of preachers the cause.

—Joshua Mills, of dark color, relieved James Noel of \$5 last week. Proof and his own acknowledgement showed him to be the guilty one, so he was taken to jail to wait till Circuit Court.

—Your scribe caught an eye glance of your Deadwood scribe, T. S. Benson, here Saturday. He has quit farming and is teaching the young minds how to aim for higher facilities beyond.

—The Calder Hotel has been taken in charge by Mr. John McDaniel. Many repairs have been made, the house remodeled and he is now ready to accommodate the public in first-class style.

—Mr. Geo. R. Waters, of Danville, traveling agent for the Estey Organ Co., gave us a short call Saturday. Mr. Waters was formerly a townsman of oars and his many friends were glad to see his appearance.

—Mr. B. Lawrence, Lincoln, was here this week viewing out a place to make his future home. He and his son will run a first-class saddle and harness shop, connected with a buggy, painting and repairing shop.

—The Middleburg Shingle Co.'s machinery closed down Friday only for a few days for some repairs to be done. Proprietor McAninch tells us that he will be better prepared to saw many more afterwards.

—Dr. L. S. Wesley will begin Monday building his new residence on Race street, opposite College avenue. The doctor will build a fancy one and; has Jeeter & Co. to construct it, which the firm is capable of doing in finest qualities.

—Our town is greatly in need of more light. People stumble over barrels, boxes and everything else, especially at Lagoon crossing. Why don't the town authorities levy tax and let's have more light? The cost would be nothing much and benefits great.

—Some few people (weak minded) I learn, are very angry and seeking your scribe to lay hands onto him over the article, "whiskey rebellion," which appeared in Friday's issue, thinking slurs had been cast upon them, though they were not in any way. I am always ready to make apologies for any mistakes and will cheerfully do so, but when news and facts are straight no matter whom they concern, I write them regardless of fear or threatenings of the wrath to come.

—A few days ago I had the pleasure of accompanying our esteemed physician, Dr. J. T. Wesley, to places where he feels pulses and examines tongues with skill. On our journey he related to me that a few days prior to that he was called to a house to see a patient, where a curiosity was shown him in the shape of a child two or three days old which was born with its left arm off below its elbow. The child was well developed otherwise. Strange to say on his return he came across another one in the same way, born on the same day, both females. This will be hard for some of the INTERIOR JOURNAL readers to digest as the truth, but as the doctor is a man who tells things only the straight way, you may rely on his veracity. Don't let you Liberty scribe know this for he will find something similar to beat it.

LONDON, LAUREL COUNTY.

—Dick Estill and Mary Reynolds were married Wednesday by Judge Barnett at the court-house.

—Brighty Ferrell, Joey Portman and Fatty Nunnelley are running things up here now. You may have them when we get through with them.

—Bill Miller, who was shot by Geo. Gragg Saturday night at Pittsburg, died Monday morning. The wounds were supposed to be slight at the time of the shooting.

—The prisoners at the jail all escaped Tuesday evening, and were captured again. They were let out in the corridor on the ground floor and had raised the brick walk around the cage and had tunneled under the foundation. Mrs. Lovell discovered the last one as he went out and emptied a five-shot revolver at them.

GREEN BRIAR SPRINGS.

—Guests will be received from this date at Green Briar at \$5 per week. September is the best month in the year for invalids at the springs, and Green Briar is the best place in Kentucky for dyspeptics and hay fever sufferers. We will keep open until Oct. 1, but we have our last public picnic to-morrow, Saturday, 29th, to which everybody is invited. Ladies admitted to ball-room free of charge and only the gentlemen who do not take dinner with us will be charged 25 cents. Respectfully,

D. G. SLAUGHTER.

THE CENTRA COMPANY, 77 Murray Street, N. Y.

STANFORD, KY., - AUGUST 28, 1891

THAT all things come to him who waits has just been demonstrated at Flint, Mich. Nearly three quarters of a century ago Myron Cole loved a charming young girl, who played him false, and was led to the altar by a rival named Hurst. Believing in the old adage, Cole waited and kept on waiting. Finally old man Hurst sickened unto death, and was called to his fathers. Cole again waited a reasonable time and then renewed his old attack on the woman's heart. This time she yielded and a few days ago the waiting Cole, now 91 years of age, was rewarded with a blushing bride on the shady side of 76. Impatient young man, let this be a lesson to you.

EVERY residence at Treves has been turned into a boarding house and the people of that little town are reaping a rich harvest from the fools who flock to see the so-called Christ's coat. Over 100,000 "pilgrims" have already arrived and the rush continues. Even if the coat were genuine, which hardly a sane person believes, we are at a loss to know what good it would do to see it. Much better indeed would it be for the "pilgrims" to have saved the money expended on their trip and given it to the poor. But the fools are not all dead and won't be till they are melted off the earth with fervent heat.

Gov. BUCKNER can be counted on to take care of his friends every time. He has just appointed Col. Mat. Adams to the vacancy on the railroad commission caused by the resignation of Mr. Hagur. This gives the colonel, whose term as secretary of State would expire next Tuesday, another year's lease on official life at a good salary, for which his legion of friends will be glad. For the few remaining days of his term the governor appointed Willis L. Ringo secretary of State, thereby bestowing a high honor on another old friend, who will of course appreciate it.

THE Hotel Brunswick, in New York, is to be torn down and the finest hotel building in the world is to be placed on its site. It will be entirely of marble, absolutely fire-proof, of Roman Architecture, and contain 450 rooms. The dining room will be capable of seating 1,000 persons. The building is to be surrounded by a drive, which is to be shaded with both trees and rare plants. The cost of this wonderful building is estimated at \$20,000,000 and none but people worth that much will be able to put up at it.

COL. C. E. SEARS, who has been wasting his sweetness on the mountain air publishing the Big Stone Gap Post, has tired of being a rural rooster and returned to his first love, the Louisville Post, which he and a syndicate have purchased of Col. Bennett H. Young and others. Col. Sears is a daisy, that is we should say a demon with a pen, but if he make the Post more entertaining than Judge Wm. M. Finley has done, the rural rooster will have to get up and crow even earlier than he did in the mountains.

AS HIS term draws rapidly to a close, Gov. Buckner is besieged with petitions for pardons, and remissions of fines, but it is dollars to cents that one of the very best governors that Kentucky ever had will maintain his reputation to the last of not granting anything unless he is absolutely sure that he is right. The pardoning power and as a matter of fact no other power, has been abused by the grand old man about to retire with the plaudits of all good people.

E. H. PORTER, the fellow who has been sending out the lurid and lying reports to the newspapers from Catlettsburg, was waited on by a delegation of citizens and told that if he didn't get in a certain time, he would be presented with a suit of tar and feathers. Not admiring that style of clothing, Mr. Porter got. That is to say he went at once, standing not upon the order of his going.

AFTER working a year or more on the returns Census Chief Porter sends out the very important information that one person in 203 of our population is over 6 feet tall. Mr. Porter also vouchsafes the pleasant information that he must have \$2,000,000 to complete his reports. That is it will take that much more money for the country to be informed how many people in the United States are below 6 feet.

THE governor of Vermont has appointed Secretary Redfield Proctor U. S. Senator to succeed Edmunds, and now the president will have to look out for another man to preside over the war department. His only trouble, however, will be in the selection. There are millions of the g. o. p. ready and anxious to serve their country in drawing fat salaries they cannot earn.

THE g. o. p. in Kentucky can not even run a post-office much less the affairs of government. Hugh Mulholland, in whose office at Paducah great crookedness was found, has resigned under fire, which is equal to a plea of confession and avoidance.

THE Owensboro Messenger is confident that of the 75,000 people who voted against the new constitution more of them had read the document and comprehended its meaning than there were on the other side. We do not suppose anybody will gainsay this. Not one republican in a hundred, for the majority of them can not read, knew what is in the concern and wouldn't know if they were told. The Messenger does not regret the fight it made, and like us would do it again if satisfied that the result would be as it is. As for the L. J., it never believed other than the constitution would be adopted.

THE Louisville Times suggests Col. W. O. Bradley for the vacancy soon to exist in the head of the war department, on account of the appointment of Secretary Proctor to the senate. The president could not make a better appointment. Not because our Garrard friend is warlike and ferocious, but because he is capable and deserving. There are few men in the South who have done as much work for the republican party and got as little reward for it as Col. Bradley, and his friends of both parties would like to see him honored.

HON. HARVEY MYERS, of Covington, was in this section the earlier part of the week seeing after his fences. He is a candidate for re-election to the speakership of the next House, and has a formidable following. He made a good presiding officer and his friends say he will do it again next session.

NEWSY NOTES.

—According to expert figures the permanent tramp population of the United States numbers 60,000.

—A post-office has been established at Pointer, Pulaski county, and Thomas D. Dicks named postmaster.

—Charles James, a brakeman on the Kentucky Central, was caught between cars at Winchester and instantly killed.

—A baby weighing 18 ounces and no longer than a lead pencil, perfectly formed and still alive is a Danbury, Conn., curiosity.

—Clifton Peake hacked Deputy Sheriff Hutchison to death with a corn knife in Meade county, when he went to arrest him for larceny.

—"King" Kelly, the \$10,000 prize of the American Base Ball Association, has signed to play with the Boston Club of the National League.

—Already 61 dead bodies have been taken from the ruins of the Park Place building, New York, and it is believed that many more are buried in the debris.

—New Jersey had the first cyclone in its history Monday. The Passaic valley was the scene, and the damage to fruit trees, corn fields, &c., is estimated at \$100,000.

—The crews of two whaling vessels are reported to have been massacred by natives of the Arctic region, near the mouth of Mackenzie river. Sixty persons were killed.

—New River Mountain, in Summers county, W. Va., has been visited by a shower of stones several times since last May and the superstitious citizens are becoming aroused.

—The strikers on the Lake Erie & Western road have consented to go to work, President Brice promising that they should have a satisfactory adjustment of troubles.

—A dispatch from Staunton, Va., says after the most exciting and vituperative campaign ever known there the election for license or no license was carried for license by 92 majority.

—The census bureau figures the wealth of the country at \$62,610,000,000 or about \$1,000 for each man, woman and child. Kentucky contributes \$162,051,535 to the grand total.

—The total crop of sugar and molasses produced in Cuba this year is estimated at 750,959 tons of sugar and 64,247 tons of molasses, the largest for years.

—J. Estell Rice, the young Middlesboro druggist who was run over by a L. & N. train at Shawnee a few days ago, died last evening from the effects of his injuries. He came here from Edinburg, Mo.

—At Tullahoma, Tenn., masked men broke open the work house, and taking out Will Lewis, colored, hung him to a tree. Lewis had been arrested the day before on a charge of disorderly conduct and the mob hung him out of pure cussedness and because it could.

—A New York financial authority declares that the prospects are for a more general prosperity among all branches of industry than has been known in this country in ten years. The crops are large and there will be a large demand from Europe for food products.

—This is the latest slate prepared for Gov. Brown: For Secretary of State—John W. Headley, of Louisville; for Adjutant General—Capt. A. J. Gross, of Breckinridge; for Private Secretary—Arch D. Brown, of Henderson; for Assistant Secretary of State—either J. A. Spaulding or Ed O. Leigh.

—The Alliance members in the Georgia legislature have killed the Confederate Soldiers' Home project, by voting to reject any kind of State connection with that enterprise, even refusing to accept as a free gift to the State the magnificent buildings and grounds of the Home, near Atlanta, valued at \$500,000.

—A special engine carrying Judge Richards, of Louisville, on the R. N. I. & N. knocked Mrs. James Richardson and her two children from a bridge near Nicholasville, killing her and mortally wounding them. A third child held to the bridge and was saved. They were walking over the bridge and the engine never failed to see them in time to stop.

—A woman who is just from the bureau of the false Christ at Rockford, Ill., tells a Lexington Leader interviewer that Schwenfurth is a miserable lecherous brute, who has caused scores of misguided women who visit his harem to submit to his embraces and numerous young girls can be seen with babies in their arms. To the inquiry "whose children are they?" the Dutch fraud answers "the Holy Ghost's."

—During Gov. Buckner's term he has had two secretaries of State, two assistant secretaries, two private secretaries and two agricultural commissioners. Adj. Gen. Hill alone of the original slate remaining. By reason of resignation or death, he has had appointments of auditor, public printer, State treasurer and State librarian. There have been shiftings among the railroad commissioners and superintendents of the lunatic asylums. There has been a change of warden of the old penitentiary, and new men are in charge of the branch penitentiaries.—Times.

CHURCH AFFAIRS.

—The Synod of Kentucky will meet at Greenville, October 7.

—Revs. John M. Long and R. E. Todd have just closed a meeting at Providence, Rockcastle county, with 16 additions.

—Revs. Ben Helm and R. A. Haden will go to Danville to-morrow to work up the plan for raising money for the latter's support as missionary to China.

—In the museum of the dead-letter office at Washington, D. C., there is a piece of parchment upon which is penned a copy of the Lord's prayer in 54 different languages.

—The Academy of Visitation, under the auspices of the Catholic church for 15 years at Paris, has been abandoned by the mother superior and nuns, who will open a school at Tacoma.

—Brooklyn, N. Y., is wild in applause of a charming young lady—Miss Bessie J. Forbes—who has gone as a missionary to convert the heathen in Western China at a cost to herself of \$10,000.

—The Rev. Mr. Moore, pastor of the 17th Street Colored Baptist congregation, Louisville, is in hock, charged with stealing the Bible, the chandelier and the clock that the brethren had provided for the church.

—A Monrovia, Kas., preacher fires off a sermon without announcing the text and then offers a prize to the one who can guess it. As he shoots recklessly and scatters so badly no one has so far been able to walk off with it.

—The Kentucky Missionary Convention, which has been in session at Covington, adjourned to meet next August in Danville. The body recommended that the first Lord's day in October be known as Kentucky Mission Day, and that all churches, through their pastors, make a collection for missionary work on that day.

—W. R. Gooch, clerk of the South Kentucky Association of United Baptists, which was recently held at Fishing Creek church, Pulaski county, was here this week to have the minutes printed. During the year 88 were received into the churches composing the association by baptism and 82 by letter, relation, &c. The total membership now is 1,886. The next meeting will be at the church at Enkanks, Tuesday after the 2nd Sunday in August, 1892.

MISCELL.

—G. P. Bright has sold his wheat at 80c to Marksberry at Lancaster. John Henry and Dave Spoonamore have sold to Danville parties at 90c and the rise. Underwood, Miller & Enbanks sold to Yantis, of Garrard county, some hogs, weighing 75 to 150 pounds for 3 1/2 to 4.

—Mr. and Mrs. Jos. Engleman have been on a visit among their Walker connections. Mrs. C. R. Harris has purchased a fine carriage of Lewis Withers, and is enjoying her gentle family mare. Rev. Caldwell will preach at the church Sunday. Bro. Godbey gave his last sermon here last Sunday, unless Conference sends him back in this work for the 3d year. Let him go where he may, he will ever show to the world that he is a good man. Sam Engleman has been trying raticide in all its forms on his rats and so far has failed to destroy any. He is going to try some Lancaster whisky next. Russell, of Danville, bought some cows for his shop here last week at 2c.

—Messrs. Robert and Jim Cox have rented Mrs. Eliza Harris farm for next year, and are to give two-thirds of the crop with everything furnished. S. Dunbar sold one of his flax name mares to Alexander for \$125, and bought a fine mare and colt of Adam Pence for \$200. Any wheat thrasher wanting work will do well to call in this locality now as people want threshing done. Thomas Smith has rented a house of Wm. Hubble, and is batching now in style. Mrs. Broadbus is talking of buying a farm in this community. Mrs. Gran. Duncan is visiting relatives near Monticello. One of the beef clubs has stopped killing here. G. P. Bright sold his horse mule to R. L. Hubble for \$40 at weaning time. Wm. Underwood sold a mare and a horse mule colt Eph Woods for \$140.

LANCASTER seems to be a legal graveyard in more senses than one. A lawyer who used to live there tells us that when he left in 1885 there were 25 attorneys there. To-day there are but five, death and other fields having called the others away.

OWING to the continued illness of Marshal W. T. Saunders his examining trial for the killing of Police Judge A. M. Egbert, was continued till to-morrow, 29th, at 10 o'clock. Miller & Owsley will defend and R. C. Warren will assist J. B. Paxton in the prosecution.

FOUND DEAD.—Undertaker Huffman shipped a casket to Gunn Sulphur for Howard Leese, Wednesday. Mr. Leese, who was a victim of consumption, was found dead in the garden, from the effects, it is supposed of a hemorrhage. He was 50 years of age, and leaves some children, but his wife had preceded him to the tomb.

FREIGHT No. 72 ran into No. 32 which was standing at South Park, near Louisville, and a terrible wreck was the result. Many cars of vegetables and merchandise were crushed to pieces and the pecuniary loss will be very great. Fortunately no one was even hurt. The mail train due here at 1:31 p.m. Tuesday, was delayed many hours, not reaching Stanford till 8.

THE Stanford Lodge, No. 156, I. O. O. F. is in a very flourishing condition. Besides owning a fine hall, which they rent to other lodges and churches for enough to pay the interest on the investment, it has \$3,000 surplus in the widows' and orphans' fund. The membership is constantly increasing and the lodge is one of the best posted and most enterprising in the State.

THE Philadelphia man who is figuring on contracting to build the water works here telegraphed that he was too sick to come this week, but would be here as soon as possible. Until it can be seen what arrangements can be made with him the committee appointed to confer with the railroad officials can do nothing. Consequently the meeting of the citizens called to hear his report was not had, but will be held as soon as practicable on call of the mayor.

IT is only a question of time when any man buying on credit and selling on credit will have to throw up the sponge, unless the fools on the other end of the line keep up the business, which they don't usually do after they catch on. B. Frank Rout is the last man to close up, though he says if he could get half of the \$500 he has out he could get safely on his feet again. It would be a good thing if there was a law against credit with a heavy penalty attached.

FAIR.—Another effort is being made to get up a permanent fair association here with a capital of \$10,000. The plan is not to allow one person to take more than \$100, into which amount the shares are divided. Mr. Joel T. Embury succeeded in raising \$3,000 in a few hours Wednesday, and there seems no doubt that the whole sum can be easily secured. When it is a good site will be purchased, a race course made and an amphitheatre and other buildings erected. There is no reason why Lincoln county should not have a fair equal to, if not better, than her neighbors, and she will if proper effort is made. Her exhibitions many years ago were decided successes.

PHIL SODEN, the "nerviest" engineer on the L. & N., was on the express Monday which was delayed nine hours by the wreck near Hazel Patch, and the way he flew into Louisville when he got by it is a caution. The Post says: From Junction City to Nelsonville is 65 miles, and there is no better piece of roadbed in the country. Soden had the right of way, and he went over that space in a way that took the old ladies' breath away. The run was made in 1 hour and 38 minutes, and there were ten stops made which consumed on an average four minutes each. The actual running time for 65 miles was, therefore, 58 minutes. There was absolutely no danger, as all the conditions were perfect for great speed, but it is safe to say that none of the passengers ever rushed through space at such a mad rate before.

THE cold snap is driving people home from the springs by the car loads, but they needn't hurry, we are going to have some red-hot weather yet.

WE hope in our next issue to tell of the largest matriculation at the College in its history. The institution is a worthy one and deserves the liberal patronage of our citizens.

HOME SEEKERS EXCURSIONS.—Excursion tickets to points in Arkansas and Texas will be sold by agents of the Queen & Crescent Route at 1½ fare for the round trip, on September 15 and 29.

THE case of Canor Roberts for the murder of Deputy Jailer Parks was continued in the Garrard county court, on account of the death of J. H. Brown, leading attorney for the defense. An effort to get bail was being made yesterday.

THEATRE.—After a long famine we are to have a feast. The Bijou Theatre Co. will be with us three nights next week, beginning Monday night, 31. The "Little Duchess" will be the opening piece. Don't fail to see it. Admission 25, 35 and 50 cents.

THE following invitation has been received: "You are respectfully invited to attend the inauguration of Gov. John Young Brown at the State House in Frankfort, Tuesday, September 1, and the reception and ball at the Capital Hotel on the evening of the same day."

COL. CLAY, who is a veritable Col. Sellers, is still going ahead taking options in Harlan county, satisfied that a railroad will be built to take away its fine coal and lumber at an early day. If the colonel could get hold of the money he always sees just ahead of him he would soon be richer than Croesus. He has just taken options on 20,000 more acres of land in Harlan county.

FARM AND TRADE ITEMS.

—In Cincinnati cattle are quoted at 3½ to 4½ for fair to best butcher, and 4½ to 5½ for good to choice shippers; best hogs bring 5½; sheep are firm at 2½ to 5 lambs 3 to 6½.

—Owensboro Messenger: "It is reported that a new crop of 2,000 bushels of corn was sold in the city last week for 33c. It is believed that the demand for corn will justify a price of at least 40c in the fall."

—Will Moreland sold to H. M. Johnston 100 Tennessee ewes at \$3.40, 205 to John Murphy at \$3.60, and 97 to Will Hubble at \$4. He also sold 259 wethers to J. B. Sandridge at 3½ cents, and 97 to W. M. McAfee at same price, and bought a bunch of good butcher cattle at 1½ to 2 cents.

—The Winchester Democrat says that Bush's farm of 276 acres was rented to Cicero Price for \$1,400. A. T. Tucker has just finished delivering 125 barrels of old corn to S. P. Kerr at \$3.50. He has also sold his crop of 1,000 bushels of wheat now in the stack to the same party at 90 cents. There were 300 cattle on the market Monday, with but few sales. Some sold at 2½ to 3½ cents and 100 mountain ewes at \$3.50.

PUBLIC SALE

—OF A—

VALUABLE LINCOLN COUNTY FARM!

At the mansion house on the premises

ON TUESDAY, SEP. 15, 1891,

At 10 o'clock A. M., I will, as executor of the last will of Thornton Porter, dec'd, and by authority thereof, sell at public auction to the highest bidder the farm on which decedent resided. This farm is on Gilbert's Creek in Lincoln county, L. & N. R. R., at Gilbert's Creek Station, and contains

119 Acres and 11 Poles of Land.

The land is first-class and improvements, fencing, &c., are fairly good. The tract will be offered in three separate parcels, one of 19 acres, 11 poles, at the station, the second of 38 acres and the third, on which is the residence of 62 acres. After the three parcels have thus been separately offered the entire tract will be offered as a whole and the bid or bids realizing the largest price will be accepted. All three of these tracts have a frontage on an excellent county road leading, at a distance of half a mile, to the Stanford & Lancaster turnpike road.

The sale will be absolute and without conditions. Possession for sowing grain will be given at once to the purchaser, and full possession on January 1st, 1892.

TERMS OF SALE:—One third cash in hand when sale is made, the remainder in two equal instalments at 6 and 12 months from day of sale. Bonds with good surety bearing 6 per cent interest from day of sale required of purchaser. A lien will be retained on land for the purchase money.

FIRST NATIONAL BANK
OF STANFORD, KY.
Capital Stock.....\$200,000
Surplus.....16,500
Attention of the public is invited to the fact that this is the only National Bank in Stanford. Under the provisions of the National Bank Act, depositors are secured not only by the capital stock, but by the stockholders' liability for an amount equal to the stock, so that depositors of this institution are secured by a fund of \$200,000. Five sworn statements of the condition of the bank are made each year to the United States government and its assets are examined at stated times by government agents, thus securing additional and perfect safety to depositors.
This institution, originally established as the Deposit Bank of Stanford in 1853, then re-organized as the National Bank of Stanford in 1863 and again re-organized as the First National Bank of Stanford in 1883, has had practically an uninterrupted existence of 32 years. It is better supplied with facilities for transacting business promptly and liberally than ever before in its long and honorable career. Accounts of corporations, fiduciaries, firms and individuals respectfully solicited.
The Directory of this Bank is composed of
T. J. Foster, of Stanford;
Forester Reid, Lincoln county;
J. W. Hayden, Stanford;

The Tree of Knowledge.
The Bible contains 3,600,000 words, 31,175 verses, 2,232 chapters, and 66 books. The longest chapter is the 11th Psalm; the shortest and middle chapter is the 11th Psalm. The middle verse is the 6th of the 11th Psalm. The longest name is in the 8th chapter of Isaiah. The word AND occurs 46,027 times; the word LORD 3,315 times. The 27th chapter of Isaiah and the 19th chapter of the 2d book of Kings are alike. The longest verse is the 34th of the 8th chapter of John. In the 21st verse of the 11th chapter of Ezra is the alphabet. The finest piece of reading is the 20th chapter of Acts. The name of God is not mentioned in the book of Esther. It contains knowledge, wisdom, nobility and love. — Providence Telegram.

That irrepressible vendor of light literature, the train boy, has added to his other tasks that of purveyor of advertising matter. Into the lap of the long-suffering passenger is thrown a little memorandum-book, size 2 1/2 by 5 inches. Every other page is occupied by an advertisement, while between the leaves in the back of the book are five two-cent postage stamps. The entire combination is offered for sale at nine cents. The avaricious passenger is thus offered an opportunity to make one whole cent, with an advertisement memorandum-book thrown in. An edition of 10,000 is guaranteed, and advertisements cost \$50 a page. The concern states that the venture has proved so profitable that its regular publication will be continued and a new edition will be issued once a month, just like the big magazine.

It is curious, but a fact nevertheless, that the days of the month and week are always the same in March and November, in April and July, and in September and December; that is, if March comes in on Monday, November will do likewise, the same rule applying to the other months named above. In leap year, January is with April and July, in other years with March and November. The last day of February and 4th of July always occur on the same day of the week. The same is true of May Day and Christmas.

Progressive hammocks is the latest craze. The one getting up the affair swings a lot of hammocks in shady places, and then gets a lot of pretty girls to swing in the hammocks and rigs up a bell. The young fellows pay so much to get in and then pick a hammock. Every time the bell rings they are obliged to move to another hammock. After that they vote for the best conversationalist and have to pay for each vote. Any young man found with powder or a long hair on his coat is soaked with a heavy fine.

It is reported that last Sunday locomotive 955, on the Philadelphia & Reading, hauled a train of 90 cars, 25 tons each, loaded with coal from Palo Alto to Port Richmond. These cars were all about 34 feet in length, thus making the total length of the train about 3,100 feet or considerably more than a half mile. The total weight of the train was estimated at 2,375 tons. The weight of the engine was about 75 tons.

Barber (to customer): "Oil, sir?" Customer (emphatically): "No!" Barber: "You are right, sir. None of our best people are using oil on their hair now-a-days." (To next customer): "Oil, sir?" Customer: "Why, yes, I suppose so. Proper thing, isn't it?" Barber: Yes, sir. "All our best people are using oil on their hair now-a-days."

I sat beside her on the beach, and as I saw the fancy clocks on her hose I asked her why it was that stockings cost much more than socks. She shook her curls at me and said: "No doubt you think you're very 'fly,' but one reason socks come lower is—because they don't come near so high."

Having successfully demonstrated that she was born 12 years after she was baptised, Mme. Patti will come to the United States in November for her 14th farewell trip, and we shall be asked to pay \$3 a ticket to see a charming lady who could once sing very well.

A good crop year is always hailed with joy by the republican leaders for two special reasons: To harvest it diverts the attention of the people, and when harvested there is that much more for the politicians to tax.—N. Y. World.

The largest grape-vine in the world is that growing at Oys, Portugal, which has been bearing since 1802. Its maximum yield was in 1884, in which year it produced a sufficient quantity of grapes to make 160 gallons of wine.

Happy Hoosiers
Wm. Timmons, postmaster of Indianapolis, writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from kidney and liver trouble." John Leslie, farmer and stockman, of same place, says: "Find Electric Bitters to be the best kidney and liver medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease of life. Only 50¢ a bottle at A. R. Penny's drug store."

La Grippe Again.
During the epidemic of La Grippe, last season Dr. King's New Discovery for Consumptive Coughs and Colds, proved to be the best remedy. Reports from many who used it confirm this statement. They were not only quickly relieved, but the disease left no bad after results. We ask you to give this remedy a trial and we guarantee that you will be satisfied with results, or the purchase price will be refunded. It has no equal in La Grippe, or any Throat, Chest or Lung trouble. Trial bottles free at A. R. Penny's Drug Store. Large bottles, 50¢ and \$1.

Modification Extraordinary.
The hen of a farmer who lives near Tionesta and a wild pheasant have both been laying eggs in the same nest. After the nest was full with about an equal number of both kinds of eggs both fowls began to set. They occupied the nest at the same time and there was a constant struggle going on. The farmer concluded that neither could accomplish anything at the rate they were quarreling, and he thought to solve the difficulty by removing the hen's eggs from the nest. This only served to make matters worse, and now both fowls are trying to hatch young pheasants.—Philadelphia Times.

A Youthful Idea.
A bright little fellow, hearing his grandfather talk of the almshouse, pondered in his youthful and inquisitive mind what that might be. Aunt Alice, a young lady of the household, was the other day made the confidant of his conclusions. "I know," said he, "the almshouse is where all the girls wears dresses 'thout any sleeves in 'em."—Hartford Post.

THE BOURBON FAIR.

To the Somerset Fair from all stations between Lexington and Oakdale and on the Louisville Southern from Shelbyville and stations east thereof Sept. 8 to 11, good to return till 12. One fare for the round trip.
To Cincinnati from Aug. 24 to Oct. 3 from Somerset and stations north and bet. Jeffersonmont and other stations east on the Louisville Southern on account of the Latonia Races and Last Days of Pompeii. Special rates and special trains are announced from Junction City north for Aug. 29, Merchant Stakes; Sept. 3, Maiden Stakes, Sept. 10, Newport Stakes and Sept. 17, Clifton Stakes. Parties going on the above dates can attend both the races and the great Spectacular exhibition. This is the only line running trains direct to exhibition grounds.

Grasslands.
Mr. M. L. Hare, of Indianapolis, owner of the above farm, writes: "I have tried all the different remedies advertised for removing curbs, splints and bunches. I feel sure in saying that Quinn's Ointment is by far the best I have ever used."

Miles' Nerve and Liver Pills

Wm. Timmons, postmaster of Indianapolis, writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from kidney and liver trouble." John Leslie, farmer and stockman, of same place, says: "Find Electric Bitters to be the best kidney and liver medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease of life. Only 50¢ a bottle at A. R. Penny's drug store."

La Grippe Again.
During the epidemic of La Grippe, last season Dr. King's New Discovery for Consumptive Coughs and Colds, proved to be the best remedy. Reports from many who used it confirm this statement. They were not only quickly relieved, but the disease left no bad after results. We ask you to give this remedy a trial and we guarantee that you will be satisfied with results, or the purchase price will be refunded. It has no equal in La Grippe, or any Throat, Chest or Lung trouble. Trial bottles free at A. R. Penny's Drug Store. Large bottles, 50¢ and \$1.

Modification Extraordinary.
The hen of a farmer who lives near Tionesta and a wild pheasant have both been laying eggs in the same nest. After the nest was full with about an equal number of both kinds of eggs both fowls began to set. They occupied the nest at the same time and there was a constant struggle going on. The farmer concluded that neither could accomplish anything at the rate they were quarreling, and he thought to solve the difficulty by removing the hen's eggs from the nest. This only served to make matters worse, and now both fowls are trying to hatch young pheasants.—Philadelphia Times.

A Youthful Idea.
A bright little fellow, hearing his grandfather talk of the almshouse, pondered in his youthful and inquisitive mind what that might be. Aunt Alice, a young lady of the household, was the other day made the confidant of his conclusions. "I know," said he, "the almshouse is where all the girls wears dresses 'thout any sleeves in 'em."—Hartford Post.
